ABSTRACT

This statistical compilation, the latest in a series of annual directories intended to provide a comprehensive source of statistics on academic libraries in Texas, provides information on collection size, additions and withdrawals, government documents, microforms, audiovisual materials, serials, periodicals, student and faculty populations, library expenditures, operating budgets, library staffing, hours of operation, circulation, interlibrary loan, salaries, and secondary statistical information derived from the foregoing. The volume is divided into three sections. The first contains data on 4-year public institutions, the second on 4-year private institutions, and the third on 2-year institutions, both public and private. The four appendices include notes and footnotes, the instructions and survey forms, a list of participating institutions, and an index of the variables reported in this publication. (RAA)

COMPREHENSIVE STATISTICAL FORM
1979/80

I N S T R U C T I O N S

GENERAL INSTRUCTIONS

1. All data should be as of August 31, 1980 unless otherwise specified.
2. Please supply estimates if accurate counts are not available. If only totals are available in certain categories (e.g., microform), please supply these even if figures are not available for subcategories.
3. As in the HEGIS survey a library is defined as an organized collection of printed, microform, and audio-visual materials which (a) is administered as a unit; (b) is located in a designated place; and (c) makes printed, microform, and audio-visual materials as well as necessary equipment and services of a staff accessible to students and to faculty.
4. Report consolidated data for all library units of a single campus. Exclude medical school libraries and law school libraries and report these separately on the statistical form to be distributed at another time.

SPECIFIC INSTRUCTIONS

Item B.1: "A volume is a physical unit of any printed, typewritten, handwritten mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, or made ready for use, or any of these." (USA Standard for Library Statistics, 1968.)

Include Government Documents which are not cataloged in the same manner as books but which are arranged for use and documents cataloged in the same manner as books.

Item B.2: Include Government Documents which are not cataloged in the same manner as books but which are arranged for use.

Item B.3.a: If a figure for actual volume equivalents is not available, use number of reels.

Item B.4.a: If a figure for actual volume equivalents is not available, use number of fiche divided by 5.

Item B.5.a: If a figure for actual volume equivalents is not available, use number of cards divided by 5.

Item B.6.a: If a figure for actual volume equivalents is not available, use number of microprint cards divided by 3, or number of boxes times 83.33 (i.e., assume 250 cards per box).

Item B.7.a: If a figure for actual volume equivalents is not available, please estimate volume equivalents assuming approximately one volume for each 300 pages.

Specific Instructions (cont'd)

- Item B.9: Include non-book, non-microform library materials which require the use of special equipment in order to be seen and/or heard (e.g., motion pictures, audio recordings, filmstrips, slides, overhead transparencies, video tapes, video discs, mixed media (multi-media) kits, etc.; exclude microforms).
- Item B.10: Include non-book library materials which do not require the use of special equipment in order to be seen and/or heard (e.g., flat pictures, study print sets, maps, charts, games, etc.; exclude microforms).
- Item B.11: A serial is a "publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publisher's series." (Library Statistics: A Handbook . . . ALA, 1966). Most statistical reports accept inclusion or exclusion of series as a part of this figure depending on the individual library's practice.
- Item B.11.a: A periodical is "a serial publication which constitutes one issue in a continuous series under the same title, usually published at regular intervals over an indefinite period, individual issues in the series being dated." (Library Statistics: A Handbook . . . ALA, 1966.) "A periodical is a publication issued in parts that usually contain articles by several contributors. It generally has a distinctive title and the successive numbers or parts are intended to appear at stated intervals, usually for an indefinite period." (Higher Education General Information Survey, U.S. Office of Education, Fall, 1973.)
- Section C: In Section C, data on institutional characteristics is requested for two separate points in time. Include data for the fall 1979 semester in column (i) and data for the fall 1980 semester in column (ii).
- Item C.6: "A full-time student means a student who is carrying a sufficient number of credit hours or their equivalent (including research or special studies) to secure the degree or certificate toward which he is working in no more than the number of semesters or terms normally taken at the institution in which he is enrolled." (Office of Education.) Normally, this will mean undergraduate students taking 12 or more hours, and graduate students taking 9 or more hours.
- Item C.7: "Full-time equivalent of the number of part-time students is to be determined by dividing the total number of credit hours of part-time students by the student-hour load required by the institution for full-time student standing." (Office of Education)
- Item D.1: A librarian position is defined as one which requires professional training and skill in the theoretical or scientific aspect of library work, as distinct from its mechanical or clerical aspect (HEGIS).
- Item D.2: Report positions which, though not librarians, require at least a bachelor's degree (e.g., curators, archivists, computer specialists, information and system specialists, subject bibliographers, media specialists, etc.) (HEGIS)
- Item D.3: Exclude custodial services and students serving on an hourly basis.

Specific Instructions (cont'd)

- Section E: In the first three columns of this section (Expended 79/80), use actual expenditures during the period September 1, 1979 through August 31, 1980 or during the fiscal year used by your institution. Please do not use encumbrances or appropriations in these columns. For the last column (Budgeted 80/81) use figures from the budget prepared at or before the beginning of the fiscal year or school year 1979/80.
- PLEASE NOTE: Column iv is not the sum of columns i through iii. Column iv concerns the current operating budget while columns i through iii are concerned with expenditures from the most recently completed fiscal year.
- Column iii: "Gifts and other" funds include only those donated specifically to the library. Institutional funds should be included in the first column.
- Item E.4: Do not include fringe benefits.
- Item E.5: Under the "Federal Funds" column (ii), include the federal work-study contribution.
- Item E.8: Include only those expenses charged directly to the library.
- Item E.14: This question is relevant for four year state supported institutions only. In Item 14.a., enter the total amount expended by the library in FY or school year 1979/80 from funds appropriated by the State Legislature for the library at your institution. (Reference: Supplement to House Journal, Sixty-Fifth Legislature, Regular Session, 1977. Text of Conference Committee Report, H.B. 510, State of Texas). In Item 14.b., enter any expenditures from State or Institutional funds in excess of this amount. The total of these amounts which is to be entered in Item 14.c. should equal the amount entered in Item E.12., column i (Total Expenditures, 78/79, State or Institutional Funds).
- Item F.3.
a. and b: Report the number of transactions of all materials charged out to library users by members of your staff.
- Item F.3.a: Report the number of recorded transactions for materials checked out for a loan period of at least overnight.
- Item F.3.b: Report the number of recorded transactions for materials checked out for a loan period of less than overnight (e.g., 2 hour loan).
- Item F.4: Include number of individual items loaned or received. Do not count number of pages.
- Item G.2: A branch campus is a campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

NOTE: To insure that questions are not overlooked, PLEASE FILL IN ALL BLANKS.

Place a "0" in the blank when your library doesn't have or do something about which we're asking. Example: If your library does not have student assistance you would answer question D.5 as follows. "Number of hours of student assistance 79/80 0."

Place "NA" in a blank if you are unable to obtain the data we're asking because it hasn't been recorded, hasn't been recorded in the form for which we're asking, or is not readily available. Example: In question F3a we ask for the number of outside library transactions of materials checked out for a loan period of at least overnight. If your outside library circulation figures include materials checked out for two hours or more, you would answer the question---NA.

If you find explanatory notes necessary, please write them in the margins.
